

I am writing in support of keeping K-Love on the air with as great an outreach as possible. I don't want the K-Love signal replaced by an LPFM. K-LOVE is very positive and encouraging. I never have to worry about what kind of music or talk is on it. It is inspirational when I'm feeling low or down. I have moved from Texas to Oregon and enjoy being able to listen to the same music in both places. When I drove through California recently on a vacation I was extremely thrilled to find a K-LOVE station as I drove several hundred miles. It is definitely in the public's best interest to keep K-LOVE as available as possible. It is changing lives every day, in a positive way! Please don't make any changes that will lessen the K-LOVE broadcasting area. We need it! Thank you for your support on this issue.
